

SEC Internship Program

Form 102 Essay Questionnaire

INSTRUCTION: Kindly answer the questions as truthfully as possible. Answer each question in not more than 500 words. You may use separate sheets if necessary.

Why did you choose to do your internship with the Securities and Exchange Commission? What do you hope to get from this internship?

I chose to intern at SEC because they have a lot to offer for students like me who are learning, especially in this field. I hope this experience will be a valuable training opportunity, helping me learn more, acquire new skills, and improve my knowledge.

What are your specific learning expectations?

I'm really excited about learning into networking and troubleshooting for computers and networks. I haven't had much opportunity to learn these skills due to a lack of resources for practicing. I'm hoping that through this internship, I'll finally get the chance to learn and gain hands-on experience with these aspects in a real-world setting.

To what extent do your current studies align with the mandate of the SEC and the work that it does? Please explain.

My IT studies fits with what the Securities and Exchange Commission (SEC) does. We learn about computer network management, managing data, and creating software. This connects to the SEC's job of making sure financial info is secure, checking rules are followed, and improving how things work.

Why should you be considered for this internship? Is there anything particularly special about you?

I'm a type of person who is eager to learn and enhance my skills and knowledge. And I do think that SEC is a good company for me to learn more. Being part of the SEC's team would provide me with a valuable opportunity to contribute my passion for learning and my dedication to personal growth.
